Professional Summary

Aspiring Network Engineer with Python development skills and hands-on experience in Linux system administration, hardware troubleshooting, and customer support. Self-directed learner on a structured CCNA-track curriculum, with a solid understanding of TCP/IP, subnetting, and routing fundamentals. Capable of building and deploying Python-based tools and web applications as a complement to networking work. Passionate about combining network engineering with Python automation and scripting.

Technical Skills

Networking: TCP/IP, Subnetting, CCNA concepts, OSI Model, Wireshark, Basic Routing & Switching, LAN/WAN

Programming: Python, Bash, JavaScript, C, SQL, HTML5, CSS3

Python & Tools: FastAPI, REST APIs, WebSocket, Supabase, JWT Authentication, WebRTC

Linux & Systems: Ubuntu, Hyprland, SSH, Git, GitHub Actions, CI/CD, Docker (basic), mksquashfs, xorriso

Hardware: PC assembly, peripheral troubleshooting, NVIDIA/AMD GPU configuration, Timeshift

Other: Ollama (local LLM inference), Cloudflare Workers, GitHub Pages, React.js

Projects

Full-Stack Blog Platform: [GitHub](#)

2025

FastAPI, Supabase, GitHub Pages, GitHub Actions, JWT Auth

- Built a serverless full-stack blog system with JWT authentication, markdown rendering, and automated CI/CD via GitHub Actions.
- Deployed on free-tier infrastructure (GitHub Pages + Supabase), achieving \$0/month hosting cost.
- Replaced a prior Notion-proxy setup, improving load performance and reducing external API dependency.

Personal Portfolio Website: heyshagor.github.io

2025

HTML, CSS, JavaScript, Cloudflare Workers, GitHub Pages

- Developed a dark terminal-themed portfolio with a blog powered via Cloudflare Worker proxy, a CV page, and responsive mobile navigation.
- Maintained a clean automated deployment pipeline using Git and GitHub Actions, resolving SSH and CI/CD configuration issues.

Professional Experience

Hardware & Customer Support Technician

Prior Experience

Dhaka, Bangladesh

- Diagnosed and resolved hardware issues across desktops, laptops, and peripherals for individual and business clients.
- Provided first-level networking support, including LAN/WAN troubleshooting, cable management, and basic router configuration.
- Delivered customer support and technical guidance, building strong communication and problem-solving skills in a service environment.

Education

B.Sc. in Computer Science & Engineering (CSE)

2022 – 2026 (Expected)

World University of Bangladesh, Dhaka

Diploma in Computer Science & Technology (CST)

2018 – 2023

Dhaka Polytechnic Institute, Dhaka

Certifications & Achievements

- Cybersecurity Training – Creative IT Institute, Dhaka
- CCNA Track – Cisco Networking Academy (Self-directed, In Progress 2025–2026)
- 16-Week Structured Self-Study Plan – CCNA Networking, Python, DSA, ML/AI, and LLM Systems (Phase 1: Mar–Jul 2026)
- Linux & Open Source – Built custom macOS-themed Hyprland Ubuntu environment; created bootable ISO from personal system using Cubic and xorriso.
